Mr. Robert Bowden
U.S. EPA Region 5
SHR-11
230 South Dearborn Street
Chicago, Illinois 60604

Dear Mr. Bowden,

I am in receipt of your letter dated October 20, 1989.

I would like to express my sincere appreciation for the consideration you, Jack Barrett and Len Zintak has shown Pollution Control Industries of America and myself.

The only concern I have is that there may exist a oversight with respect to the transportation being performed by others. To bring you up to date during the second phase of the PCB liquid removal, under Mr. Rupert's direction PCIA transported about 20,000 gallons for incineration we also removed and transported 25 drums for fuel blending. After Mr. Zintak became the OSC for CIWH, PCIA transported the rinseate from the tank cleaning operation for incineration.

on Sept 19

So with this in mind I believe there has been an oversight and would appreciate any attention you can give this matter. I have also enclosed some information on PCIA for your review. If you require any other information or wish to set up a meeting to discuss this please do not hesitate to contact me.

Sincerely,

Kevin Prunsky

cc Jack Barrett
Leonard Zintak Jr.
